

What's happening in the Andes Region?

News Letter N° 4 | AUGUST 2021

SOLUTIONS

Argentina launches the "Green Productive Development Plan" at the national level to move towards an ecological transition. The Plan focuses on 4 axes: green economy, circular economy, sustainable production, and sustainable industrialization. More information [here](#)

CHALLENGES

In Ecuador, in 2020, there were 43,260 births to adolescent women (15 to 19 years old), a rate of 54.6 live births per 1,000 adolescents. Although it is a decrease in relation to the previous year, teenage pregnancy continues to be a challenge for the development of people and countries. More information [here](#)

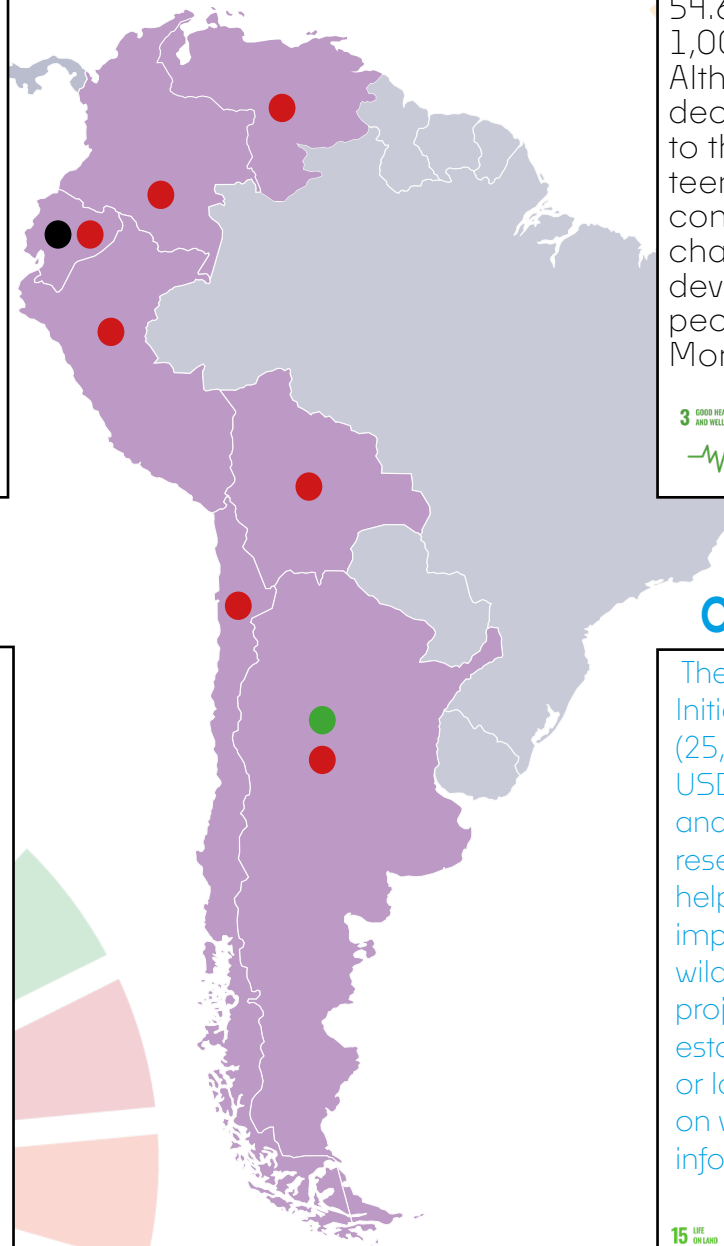

THREATS

Climate change is happening faster than any modern human has experienced. The increase in extreme weather and climate phenomena will have increasingly catastrophic and irreversible consequences for everyone if we do not reduce greenhouse gas emissions. More information [here](#)

OPORTUNITIES

The "Wild Animal Initiative" offers funding (25,000 – 250,000 USD) to individuals and institutions for research projects that help understand and improve the lives of wild animals; especially projects that help establish careers and/or laboratories focused on wild animals.
