

# What's happening in the Andes Region?

News Letter N° 8 | DECEMBER 2021

## SOLUTIONS

In Chile, the National Forestry Corporation (CONAF) develops an environmental education campaign to generate behavioral changes in the population that contribute to preventing the occurrence of forest fires caused by human activity. [More information here](#)

## CHALLENGES

In Argentina, between January and June 2021, 137 victims of femicide were registered. Additionally, the number of feminicide suicides has increased since its registration began in 2019. Facing this challenge requires public policies aimed at preventing, punishing and eliminating violence against women. [More information here](#)

## THREATS

The Omicron variant of the SARS-CoV-2 coronavirus, which causes COVID-19, is spreading rapidly in the region, threatening the health of its inhabitants and the economic reactivation of their countries. This emphasizes the importance of advancing vaccination and maintaining biosafety measures. [More information here](#)

## OPORTUNITIES

UNOPS invites project proposals to be subsidized by the "living with dignity" fund, created to respond to human displacement crises. These projects (between 0.5 and 2.3 million USD) must propose innovative and development-oriented strategies to help displaced people. [More information here](#)
